

WHAT IS CTL DOING TO PREVENT THE SPREAD OF COVID-19?

OUR PROACTIVE APPROACH

ENHANCED EMPLOYEE TRAINING

Center for Transforming Lives Staff has been thoroughly trained to go above and beyond CDC Guidelines for sanitation and preventative care.

Read the [**FULL CDC GUIDELINES HERE**](#).

PROFESSIONALLY SANITIZED FACILITIES

All CTL facilities have been professionally sanitized with safe, industrial-grade products, including an Electro Static Disinfection Spray that significantly decrease the spread of bacteria, and are routinely maintained through extensive disinfection and cleaning procedures.

ON-SITE PROCEDURES

LIMITED IN-PERSON GROUPING

We have reduced size of groups/gatherings throughout facilities, for both adults and children, based on age and CDC recommendations. For one-on-one sessions, group workshops, and meetings, CTL utilizes virtual meeting technology when accessible. All Childcare Centers abide by group rules and practice safe, limited contact care.

ESSENTIAL PROTECTIVE GEAR

All CTL Staff is required to wear a mask on-site at every facility. Visitors are encouraged to wear a mask upon entry. One-time use gloves are used in Childcare Facilities and for Sanitation Staff.

HOW YOU CAN HELP

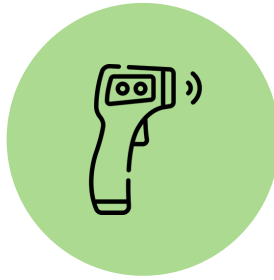

- **Wear a mask and wash your hands** upon entry to all Center for Transforming Lives facilities
- **Respect the 6-foot rule**
- Schedule appointments and coaching sessions **virtually**
- **Call 817-332-6191 for questions** regarding services, drop-offs, and social enterprises
